

THE BRITISH COLUMBIAN.

No. 19, Vol. 4.

NEW WESTMINSTER, WEDNESDAY, APRIL 20, 1864.

Price 6d. or 12 cts.

This Journal is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, APR. 20, 1864.

A GAME LAW.

The Colony is yet in its youth; but is it too young to need a game law? When we look out at our window as we write and see Indians parading the streets with great bundles of grouse, duck, and other game, every individual female of which represents a dozen of its species in prospective, the thought forces itself upon one's mind, are we right in thus permitting the wanton and unnatural slaughter of millions in embryo of these useful birds? It is true they seem so plentiful at present as to render any protection unnecessary; but depend upon it such slaughter at this season of the year will soon make itself felt. The killing of deer also at this season is a matter that demands the intervention of the Legislature. In a country like British Columbia, where food is so dear, it is even more important that game should be protected than in old countries, where it is prized more on account of the sport it affords than the intrinsic value of it as an article of food. At certain seasons the product of our forests constitutes no very unimportant item in the food of the masses, thus affording a much more broad and practical ground for demanding legislation upon the subject than exists in many other countries.

In writing upon this subject we are quite aware that on the 1st inst. the Hon. H. Holbrook inquired of the Hon. Attorney-General whether there was any law for the protection of game in this Colony, and was answered in the negative, accompanied with the assurance that the subject occupied the attention of the Government. But so well aware are we of the procrastinating character of the official upon whom devolves the duty of preparing such things, that we fear the poor birds may all be killed off before we hear any more about it unless some pressure be brought to bear. The same functionary has, we believe, had his attention occupied with a marriage law for nearly three years, and yet we still find the same discouraging circumstances in the way of those who would desire to form a matrimonial partnership, the anomaly of having to go to another Colony to procure a license being still in existence. A game law need not necessarily emanate from the Executive, but would be a legitimate subject for any member of the Council to introduce. We hope, therefore, to see this question occupy the early attention of the Legislature, either in the shape of a Bill introduced by an independent member or by the Government.

WILLIAM CLARKSON

HAS ON HAND SEVERAL

VALUABLE TOWN LOTS FOR SALE.

ALSO, SEVERAL MINING INTERESTS ON WILLIAMS AND LOWEE CREEKS.

Mr. CLARKSON will give strict attention to Collecting Bents, Accounts, Loaning Money, Overseeing Contracts, Viewing Suburban and Rural Lands for intending purchasers, and selling by Auction any Goods or Property that may be entrusted to his care.

LAND SCRAP bought and sold, and any general business attended to.

Office—On Columbia Street, adjoining the New Westminster House.

JOHN A. FRASER,
Mining Engineer
—AND—
SURVEYOR,
CAMERONTON, B. C.

THE SUBSCRIBER begs to intimate to his Cariboo friends and others that, having had several years' experience in Canada as a practical Railway Engineer, and having this day been admitted as a sworn Surveyor for British Columbia, and having also recently provided himself with a complete set of instruments of unsurpassed excellence, he feels the strongest assurance of being able to execute, with correctness, neatness and dispatch, any business that may be entrusted to him.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism."—Times, June 11, 1862.

"A triumph of ingenuity."—Telegraph, March 31, 1862.

"A more splendid and exquisitely-finished piece of mechanism we have never seen."—Standard, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the design, engraving upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

Clocks—Drawing Room, Dining Room, Bed Room, Library, Hall, Staircase, Bracket, Carriage, Chimney, Musical, Astronomical, Church, Turret, Stable, Railway, Post-office, Shop, Warehouse, Office or Counting-house, from 1,000 guineas to £1 1s. each.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia; it is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. W. F. HERR, in Victoria, and THOS. BOWEN, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, APR. 20, 1864.

MAKE READY to receive the representative of our beloved Queen with becoming respect. From the most reliable information His Excellency Gov. Seymour may be expected to arrive by H. M. gunboat *Forward* about or shortly after noon today. The arrival in British Columbia of his first Governor from England is a memorable event, from which will date a new era in our history. To-morrow has been proclaimed a public holiday, as will be seen by a notice from the President of the Council, published elsewhere.

THE FORKS, QUEENSLAND.—We have just seen a letter written by a gentleman at the Forks, in which it is stated that that route has been open and in good travelling condition all winter. He also states that a bridge has been built across the North Fork, cutting off Capt. Mitchell's bridge and effecting a saving of one half the distance from the Forks to Williams Creek, bringing these points within 35 miles of each other. There is also said to be a great abundance of feed for animals along that line of travel this season.

THE POWER OF ROYAL EXAMPLE.—The number of marriages in London during the quarter immediately succeeding the marriage of His Royal Highness the Prince of Wales was unusually large, a fact which the Registrar-General attributes to that circumstance.

THE STR. "LILLOOET" returned from up-river on Monday. She brought Dietz & Nelson's Express from Douglas. The news from that section is void of incident. Forwarders were busily engaged in pushing forward goods, and we understand the lake steamers are in a state of readiness for the summer's traffic.

THE WEATHER during the last week has been more settled and summer-like, and vegetation is now very rapid. Fruit trees and strawberry plants are in full blossom, and the fruit crop promises to be very abundant this season.

THE STR. "RELIANCE" returned yesterday from Yale. She brought a small express for Dietz & Nelson, but no news of importance.

GOOD NEWS FROM SHUSWAP.—We learn from a gentleman who arrived from Yale yesterday that trains just in from the Shuswap diggings bring very encouraging intelligence. Quite a large nugget obtained on Cherry Creek is in the possession of Mr. Romano of Yale. Supplies in considerable quantities are going out and a good season is confidently anticipated.

NANAIMO THE SEAT OF GOVERNMENT.—We find in the *Colonist* of the 15th a communication from Nanaimo deprecating the recent scurrilous action of the House of Assembly upon the question of providing a residence for the Governor, and the hint is thrown out that Nanaimo may yet come to be the seat of Government. More unlikely things have happened.

THE SAND HEADS.—Capt. Cooper, Harbourmaster, went down to the mouth on Saturday with the str. *Hope* and moored two buoys on the Sand Heads.

HON. A. J. LANGLEY.—The *Colonist* of the 14th announced the resignation of this gentleman as a member of the Legislative Council, assigning "disgust" as the reason. Mr. Langley, in a note published in the next issue, denies that such was the ground of resignation.

GOLDSTREAM.—It would seem, if we may judge by the papers received last evening, that Victoria is the scene of intense excitement on account of the discovery that the quartz from these mines yields \$10,565 of gold and \$23,78 of silver to the ton. All we can say is, we hope it is true. It is said the discoverers have sent in a claim for \$5,000, being the bounty offered some two years ago by the Island Government.

A BAIL.—The *Colonist* gives an account of a subscription ball which came off at the Lyceum Hall, Victoria, on Thursday evening, and enumerates amongst the guests: Governor Kennedy and ladies, and Governor Seymour. Supper—a sumptuous one—was served in the adjoining restaurant of the Colonial Hotel.

GAZETTED.—We observe that in the *Chronicle's* "London letter" it is stated that J. W. Trutch, Esq., has been gazetted Chief Commissioner of Lands & Works for this Colony.

THE WAR NEWS is up to the 11th inst., but wholly devoid of interest. The European intelligence is to the 27th ult. Britain's proposal of a conference has been accepted by the belligerents. France takes part in the conference, which is somewhat surprising, when Britain's recent refusal is remembered. We can hardly venture to hope for a peaceful issue now.

DEATH OF A CANADIAN.—A McVean, a native of Canada, aged 34 years, en route for Cariboo, died on the steamer Golden City on the 26th ultimo.—*Chronicle*.

CANADIANS COMING.—We are informed that several hundred Canadians are on their way to British Columbia.—*Chronicle*.

TRouble WITH OUR TELEGRAPH.—The President of the California State Telegraph Company writes to his solicitor in this city complaining of certain stipulations introduced into the Telegraph Bill in the House, and stating that while such stipulations are in force he can not think of sending up the wire—which has been already ordered—to construct the line. The objectionable parts of the bill are in the 8th clause, providing for the repairing of the line when down, in which the words "all due diligence" and "unavoidable accidents" are used. The president wishes to have the meaning of these words defined before commencing operations. The difficulty will be satisfactorily arranged, without delaying the prosecution of the undertaking.—*Colonist*.

Municipal Council.

Town Hall, April 18th, 1864.

Members Present, Councillors Manson, Armstrong, Clarkson, Webster, Murray, Calder and Ross.

In the absence of the President Coun. Clarkson was voted to the Chair.

Minutes of previous meeting read and confirmed.

The Finance Committee asked further time to report, as the Treasurer had not returned—time granted.

The Hog and Goat Bye-Law, as amended by the Attorney-General, was read, when it was moved by Coun. Murray, seconded by Coun. Ross, and Resolved, That the Hog and Goat Bye-Law be passed as now read and forwarded for the Governor's sanction.

The Council then adjourned.

GENERAL COMMITTEE FOR THE RECEPTION OF GOVERNOR SEYMOUR.

The Hon. Mr. Justice Begbie, Hon. J. A. R. Homer, Rev. Mr. Sheepshanks, Rev. Mr. Browning, Rev. Father Grandinier, A. T. Bushby, Hon. H. P. P. Crease, Hon. Charles Brew, Hon. W. Hamley, Archdeacon Wright, G. C. Matthews, W. Fisher, J. A. Webster, A. R. Howse, R. Wolfenden, C. Good, J. Connell, J. Macnamara, J. Murray, J. Graham, A. Calder, Robert Greig, R. Hannah, S. T. Tilley, Dr. Oliver, Hugh McRoberts, Rev. Mr. Reeves, E. Picht, P. Greley, Geo. Clarkson, John Murray, Capt. Millard.

Artemus Ward and the Artist.

I was fixin' myself up to attend the great war meetin' when my daughter entered with a young man, who was evidently from the city, and who wore long hair, and had a wild expression into his eye. In one hand he carried a portfolio, and in the other paw clasp a bunch of small brushes. My daughter introduced him as Mr. Swiecher the distinguished landscape painter from Philadelphia.

"He is a artist, papa. Here is one of his masterpieces—a young woman gazin, admirably upon her 1st born, and my daughter showed me a really pretty picture, due in ile. 'Is it not beautiful, papa? He throws so much soul into his work'."

"Does he?" said I. "Well, I reckon I'd better hire him to whitewash our fence. It needs it. What will you charge, sir?" I continued, "to throw some soul into my fence?"

My daughter went out of the room in very short meter, takin' the artist with her, and from the very emphatic manner in which the door slammed, I concluded she was summat disgusted at my remarks. She closed the door, I must say, in *Italian*. I went into the closet and larfed all alone by myself for over half an hour.

FISH AND GAME OF CANADA.—A few days ago the annual meeting of the Fish and Game Protection Club was held in Quebec. The Committee presented a report which was received and adopted. As regards game the Committee remarked that the extreme dryness of last season compelled different kinds of migratory game to seek other localities more congenial to their taste and habits. Ruffed and Canada grouse were abundant, and the markets well supplied with them. Woodcock and snipe, from the cause above adverted to, were scarce, and brought high prices. Some good snipe-shooting was, however obtained on the south shore; great numbers of snipe were also found in certain sections of Western Canada. Golden-plover were numerous for a short time. Wild-ducks of different kinds, as well as geese, were abundant. Water fowl have greatly increased about the shores and islands of the lower St. Lawrence since the passing of the present Game Act forbidding the removal of their eggs. The Committee remark that it would be a great boon if the Act were so amended as to entirely prohibit the shooting of the old birds during the spring, and that the shooting of Woodcock between sunset and sunrise, when these birds are on their feeding ground should be forbidden at all seasons. The cariboo have been as numerous as usual. Excellent sport has been obtained in Canada West in hunting deer, which have been very numerous. Prairie fowl, quail, and other kinds of game, were in great numbers. The Secretary prepared and caused to be submitted to Parliament a Bill to prohibit the wanton destruction of insectivorous, singing and small birds. This measure from its utility to agriculture as well as upon the score of humanity, will be again proceeded

with at the approaching session of the Legislature. The committee report that the salmon fisheries on the north shore were not so productive last season. The number of salmon taken on the north shore of the St. Lawrence was much larger than usual. The Secretary presented to the Legislature a petition for the alteration of the fence time for trout, which, the Committee desire to state, should begin on the 1st of September, and end about the 31st of December following. A Bill to amend the Fishery Act was introduced last session. The Committee submit, that it is desirable to pass a separate law for the exclusive regulation of salmon and trout fisheries, a course the Imperial Legislature has considered it necessary to adopt.

WINTER.—We are accustomed to consider winter the grave of the year, but it is not so in reality. The stripped trees, the mute birds, the discoloured gardens, the frosty ground, are only apparent cessations of nature's activities. Winter is a pause in music, but during the pause the musicians are privately tuning their strings, so that they may be prepared for the coming outburst. When the curtain falls on one piece at the theatre, the people are busy behind the scenes making arrangements for that which is to follow. Winter is such a pause—such a fallen curtain. Under ground, beneath snow and frost next spring and summer are secretly getting ready. The roses which young ladies will gather six months hence, for hair or bosom, are already in hand. In nature there is no such thing as paralysis. Everything flows into the other, as movement into movement in graceful dances. Nature's colours blend in imperceptible gradation; all her notes are sequacious. I go out to my garden and notice that when the last leaves have fallen off my lilac and currant bushes—like a performer at the side-wings waiting his turn to come on—the new buds are all ready. Today I beheld great knobs of buds on a horse-chestnut of mine, liquored over with an oily exudation which glittered in sunlight. In my plants the life which in June and July was exuberant in blossom and odour, has withdrawn to the root, where it lies perdu, taking counsel with itself regarding the course of action to be adopted next season. The spring of 1864 is at present underground, and the first snows will hardly have melted till it will peep out timorously in snow-drops; then, bolder grown, crocuses will hold up their coloured lamps; then, by fine gradations, the floral year will reach its noon—the rose; then, by fine gradations, it will die in a sunset of hollyhocks and tiger lilies; and so we come again to withered leaves and falling snows.—*Good Words*.

DRUNKENNESS.—An English office—the Accidental Death Insurance Company—declares that "there is one risk only which the company declines to insure, and that is the vague and uncertain risk of drunkenness. They will not insure the drunkard at any price, nor will they continue the insurance of any who fall into that state. The drunkard not only continually meets with accidents, but his constitution fails to repair an injury, and so renders his risk a burden upon the society."

THE DISADVANTAGES OF BEING AGREEABLE.—I was once what is called and agreeable man, and the consequences of enjoying such a reputation were as follows.—I was asked to be a god-father forty-eight times, and my name is recorded on as many silver rings, value each £4 10s 6d. I gave away fifty-six brides, and as many dressing-gases. I paid in the course of fourteen years £275 2s 6d for cab fares in excess of what I ought to have done. I lent 264 umbrellas, and never received them back again. I have had three hundred and odd colds, and retain a permanent rheumatism from consenting to sit in draughts to oblige other people. I have accepted two hundred and four accommodation bills for friends in Government offices, and I am now going to Bassinghall street to declare myself an insolvent preparatory to my departure for Australia.

A few days ago, while some of the labourers in the employment of Mr. Key, shipbuilder, Kirkaldy, were engaged removing an embankment at the new shipbuilding-yard near Kingshorn, they came upon a large earthen jar, equal in size to a two-gallon measure, full of old silver coins. The coins mostly belong to the reigns of the Edwards, intermixed with a few Scotch, of the reigns of Alexander III., John Balliol, Robert Bruce, and David II. The latest date legible is 1375.—*Id.*

An eccentric preacher, seeing a fly light upon his Bible, improved the occasion as follows:—"Ye godless sinners, ye shall be damned, every one of you, as sure as I shall catch that fly." Here he made a fell swoop with his hand, as though he had caught it; opening each finger slowly, till at last he found it was not there, and said: "By the hokey, I've missed it! There's a chance for ye sinful ragamuffins yet!"

The Boston *Traveller* observes: "New playing cards are spoken of, the pictures on which are to be taken from the forms and faces of men who have distinguished themselves in the war. Eminent contractors will sit for the knaves."

Punch says he never could see that Canada was of much benefit to England; for all the mother ever got from those provinces was wars, and fights, and rows—except the Canadian boat song, and even that commences—"Row, Brothers, Row!"

The State of Illinois claims that she has raised the biggest ox that has ever been known since the flood—his oxship is five years old, twenty-one hands high, nineteen and a half feet in length and weighs thirty-six hundred pounds, with a prospect of weighing six thousand if he gets fat enough.

When Cromwell first coined his money, an old cavalier looking upon one of the new pieces read this inscription on one side, "God with us;" on the other, "The Commonwealth of England." "I see," said he, "God and the Commonwealth are on different sides."

"He what prigs what isn't his'n, When he's cotched is sent to prison."

"You don't seem to know how to take me," said a vulgar fellow to a gentleman he had insulted. "Yes I do," said the gentleman, taking him by the nose.

To make hens lay perpetually, hit them on the head with a big club. Other modes have been recommended, but this is the only one found to be effectual.

Miss Lovely says that the males are of no account from the time that ladies stop kissing them as infants till they kiss them again as lovers.

A one-legged man died suddenly in France, a short time ago. His sister, on looking over his will, discovered that in the wooden leg was deposited 5,000 francs. The body was exhumed, and the money found in the leg.

The New South Wales post offices are transmitting to England at the rate of nearly £30,000 a year in money orders.—*Id.*

HOLLOWAY'S OINTMENT AND PILLS.—Bad Legs.—Any unnatural discharge from the skin is at all times disagreeable, but in hot weather it becomes irritating—sometimes offensive. Bad legs, old wounds, scrofula, and scorbutic eruptions are cooled, soothed, and cured by Holloway's Ointment. It at once arrests all diseases of the surface by purifying and regulating the circulation in their neighbourhood, by giving energy to the nerves of the affected part, and by expelling all poisonous and noxious matters. It ejects the seeds of all virulent eruptions and ulcerations, and thus confers no partial or temporary boon, but a complete and permanent cure. By means of these remedies all sufferers may aim at attaining health, and will invariably succeed.

NEW WESTMINSTER, WEDNESDAY, APR. 20, 1864.

Poetry.
Oh! bury me in some lone old wood,
Nest some broad-spreading tree,
Where all the forest choir will come
With sad sweet melody.

And when my friends, as they come to plant
Sweet roses o'er my grave,
Will hear in all the lonely hours
The ripple of the wave;
Where the stars of heaven and flowers of Earth
Shall come to visit me,
And nought shall break the evening's calm
Save the murmur of the sea.

For oh! I love the forest,
The mountain, and the dell,
The pale wild flowers, the rivulets—
I love, I love them well.

Miscellaneous Items.

A NOVEL SCIENTIFIC VOYAGE.—A letter from
Toulon gives some curious details relative to a
scientific voyage about to be undertaken by
the Duke de Luynes. Lieutenant Vignes, of
the Imperial navy, has been appointed to the
command of a steam gun-boat belonging to the
Duke, which is to sail towards the end of the
month on this voyage of discovery. After hav-
ing visited the most interesting places in the
Mediterranean, and particularly the coast of
Syria, the boat is to be carried on the backs of
mules across the mountains of Judeah, to be
launched on the Dead Sea, of which the waters
are to be analysed, as chemists are not agreed as
to their quality. The gun-boat is to be again
carried to the Mediterranean, whence it will pro-
ceed to the Black Sea, ascend the Don, cross the
Steppes of Dolgo in a wagon to reach the
Wolga, which it will descend to the Caspian Sea,
that immense conglomeration of water and of oil
of petroleum, continually agitated with storms.
After having carefully studied these phenomena,
as well as the various inhabitants of that little-
known region, the travellers will cross, on camels,
the deserts of Asia Minor to the town of Mous-
son, where they will explore the course of the Tiger
and the Euphrates, and examine the ruins of
the great cities which flourished on their banks.
After having accomplished that prodigious jour-
ney across seas, rivers, mountains, and deserts,
the gun-boat will return to France by the Per-
sian Gulf and Red Sea. All the difficulties at-
tending such a dangerous journey have been well
considered and carefully anticipated. Even the
construction of the boat is a chef-d'œuvre of na-
val architecture and of comfort. All the pieces
into which the boat is divided when taken asun-
der are actually numbered, so that it may easily
be put together in twenty-four hours. It will
be for the first time that a steam-boat shall have
been carried across the precipices of Daghestan
and the scorching sands of Mesopotamia. A
picked crew have been placed under the com-
mand of Lieutenant Vignes by the French Gov-
ernment for the navigation and transport of the
gun-boat. The Duke de Luynes is to be accom-
panied by several friends, as well as by savans
and artists of the greatest merit, who have soli-
cited the honor to share with him the dangers
of this hazardous enterprise.

WORK.—The best lesson a father can give his
son is this:—"Work; strengthen your moral
and mental faculties, as you would strengthen
your muscle by vigorous exercise. Learn to con-
quer circumstances; you are then independent
of fortune. The men of athletic minds, who left
their mark on the years in which they lived, were
all trained in a rough school. They did not
mount their high position by the help of leverage;
they leaped into the chasms, grappled with the
opposing rocks, avoided avalanches, and, when
the goal was reached, felt that but for the toil
that had strengthened them as they strove, it
could never have been attained."

CHEEK.—When Sheridan, found drunk in a
coal-hole, and questioned as to his name, replied
that it was "Wilberforce," he did a sufficiently
impudent thing. But it was not a touch to the
effrontery of Senator McDougall, who, when
picked out of the street ditch by a policeman and
told to give his name, replied, in a guttural voice,
"Don't you see I'm Sewer'd!"

POLITENESS.—Pat Dolan at Inkerman bowed
his head to a cannon ball, which whizzed past six
inches above his bare skin. "Faith," says Pat,
"one never loses anything by politeness."

A bashful youth was paying his addresses to a
gay lass of the country, who had long despaired
of bringing things to a crisis. He called one
day when she was alone at home. After set-
tling the merits of the weather, miss said, look-
ing ely into his face:

"I dreamed of you last night."
"Did you? Why, now?"
"Yes; I dreamed that you kissed me."
"Why, now! What did you dream your
mother said?"
"Oh! I dreamed she wasn't at home."
A light dawned on the youth's intellect, and
directly something was heard to crack—perhaps
his whip, and perhaps not, but in about a month
they were married.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the
most simple and certain remedy for indigestion, flatu-
lency, acidity, heartburn, colic, constipation, and all the
many maladies resulting from disordered stomach or
bowels. In all diseases it is of primary importance to
set the stomach right. These Pills are purifiers, altera-
tives, and strengtheners of the stomach. They may
be taken under any circumstances. Though powerfully
tonic, and satisfactorily aperient, they are mild in their
operation, and beneficial to the whole system.

**Weakness and Debility, Nervous
Irritability.**

The wholesale effect exercised by these admirable
Pills over the blood and fluids generally is like a charm
in dispelling low spirits, and restoring cheerfulness.
Their general aperient qualities well fit them for a do-
mestic medicine, particularly for females of all ages and
periods of life. They never betray any disagreeable
irritating qualities; they quickly eject all impurities
from the system, and regulate every function of the body,
giving wonderful tone and energy to weak and debili-
tated persons, while they brace and strengthen the ner-
vous system in a most extraordinary manner.

**To Regain Health, Strength and
Vigour.**

Whenever persons find themselves in that state termed
a "little out of health," and there are so many causes
at work to shorten life, it is necessary that Hollow-
way's Pills, the finest purifier of the blood ever known,
should be at once taken, as they not only rid both solids
and fluids of all morbid matters, but regulate all disor-
dered actions, and strengthen the frame in a most ex-
traordinary manner.

**Old Coughs, Colds and Asthmatical
Affections.**

These Pills, assisted in their action by rubbing Hol-
loway's Ointment very effectively twice a day upon the
throat and chest, and keeping those parts covered with
the preparation, will be found the most effectual reme-
dy for asthma, coughs, colds, bronchitis, and influenza.
These remedies tranquilize the hurried breathing,
soothe the irritated air-tubes, and assist in dislodging
the phlegm which stops up the air-passages. This
treatment has proved wonderfully efficient in not only
curing old settled colds, but asthma of many years
standing, and even when patients who were in so bad a
state as not able to lie down on their beds lest they be
choked with phlegm.

**Derangement and Distention of the
Bowels, Flatulency Diarrhoea
and Dysentery.**

Any symptoms of the above complaints should be im-
mediately met by appropriate doses of these Pills, ac-
cording to the printed directions: delay may be fol-
lowed by dangerous consequences. These Pills are a
certain remedy for all the ailments of the alimentary
canal, they secure the thorough digestion of the food,
and act most kindly on the stomach, liver, bowels and
kidneys. As a household medicine they are unrivalled,
and should always be at hand.

**Very Important, of Costiveness
Beware.**

Rarely but little notice is taken of costiveness, yet,
at certain periods, it is a sure sign that danger is near.
All who are seized with apoplexy and paralysis, have
previously suffered from costiveness. In the former
case the blood rich to the head, a small vein is ruptured
on the brain, and we know the rest. Let wives coun-
sel their husbands, and husbands their wives, never to
go to bed a second night, if the bowels have not been
properly moved during the day, particularly if they feel
heavy and drowsy. A few gentle doses of these fine
Pills will regulate the circulation of the blood, and all
dangerous symptoms.

Holloway's Pills are the best remedy known in the world
for the following diseases:—

Ague	Female Irre-	Retention of Urine
Asthma	gularity	Scrofula, or King's
Bilious Complaints	Fevers of all	Evil
Blotches on the	kind	Sore Throat
skin	Fits	Stone and Gravel
Bowel Complaints	Gout	Secondary Sym-
Colic	Head-ache	ptoms
Constipation of the	Indigestion	Tie Douloureux
Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Com-	Veneral Affections
Dropsy	plaints	Worms of all kinds
Dysentery	Lumbago	Weakness, from
Erysipelas	Piles	whatever cause,
	Rheumatism	&c., &c.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflan-

mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to its
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat:
this course will at once remove inflammation and alie-
ration. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system, render
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore-throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes.	Fistulae.	Scrofula.
and Sand-Piles.	Gout.	Sore-heads.
Coco-bay.	Glandular Swel-	Tumors.
Chicago-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY,
244, Strand, (near Temple Bar) London: and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilized world, at the following prices:—1s.
1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*There is a considerable saving by taking the
larger sizes.

N.B.—Directions for the guidance of patients in
every disorder are affixed to each Pot. au15
